

## **Technical Specification and Terms & Conditions**

---

### **Portable Salt in Crude Analyzer :**

- |                        |  |
|------------------------|--|
| 1. Type                | : Portable and bench top Type                                  |
| 2. Model               | : Bidder must mention complete model number                    |
| 3. Manufacturer        | : Bidder must mention manufacturer                             |
| 4. Country of Origin   | : USA, JAPAN, UK, EU   |
| 5. Conformity Standard | : ASTM D 3230  |
| 6. Detection Range     | : 0-150 PTB & 0-500 ppm  |
| 7. Test Results        | : Automatically calculate salt concentration results           |
| 8. Accuracy            | : $\pm 0.5 \%$   |
| 9. Display             | : Digital  |
| 10. Readout Units      | : PTB, mg/kg   |
| 11. User Calibration   | : Verification against standards.                              |
| 12. Power              | : 220 V $\pm$ 10%, 50 Hz Mains adaptor                         |
| 13. Battery            | : Rechargeable. Battery Charging Port/Adaptor must be included |

### **Terms & Condition :**
